External Joinery Solutions

Delivering excellence, inside and out

External Joinery products create the first impression where real individuality can be achieved through the correct choice of product and finish.

At XL we understand this and to complement our established range of external doors we are introducing a range of high performance energy efficient Timber Windows.

Our range of French Doors and Folding Sliding doors have been upgraded and now come pre-finished as standard.

As with all XL products our new ranges are tested to the highest standards both in-house and by certifiers to ensure the products meet the stringent demands of everyday life and all relevant British Standards.

High Performance Timber Windows

NEW

Timber Windows

Combining the best in specification and aesthetics our new range of high performance Timber Windows offer an excellent upgrade solution to an energy efficient timber window.

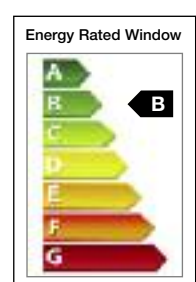

The minimalistic flush profile and crisp white finish are based on exacting Scandinavian designs and specifications and have been adapted to suit the rigours of the UK market.

Not only does the product come with a Window Energy Rating (WER) of B it also achieves a U-Value of 1.4 W/m²K. CE Marking ensures our windows comply with the Construction Products Directive. The range also carries the prestigious Q Mark from BM TRADA.

All windows come fully finished in white and fully glazed with high security Espagnolette locks, aluminium drained and vented bottom beads and easy clean projecting friction hinges. All windows are manufactured from engineered timber for greater strength and stability.

The range is tested and adheres to all of the stringent British Standards relating to Timber Windows including:

- BS 644:2009
- BS EN 14351-1:2006
- BS6375 Parts 1, 2 & 3 (2009)
- BS EN 1279 Parts 2 & 3 (2004)

Product Accreditation

Our Timber Windows all come with stringent guarantees to give peace of mind that the windows will last and perform to the correct standard for many years to come.

Guarantees

- 30 Years against Rot and Fungal Decay
- 10 Years against Manufacturing Defects
- 10 Years on Factory Painted Finish
- 10 Years against Double Glazing Unit Failure

Stocked

The range is available on our standard one week lead-time ensuring prompt availability.

Building Regulations

Current Building Regulations call for a minimum U-Value of 1.6W/m²K or Window Energy Rating of C. At XL we strive to provide the most energy efficient products available and as such our windows far exceed the minimum requirements with a U-Value of 1.4W/m²K and Window Energy Rating of B. This means a superior window with enhanced specification features at a cost effective price.

High Performance Timber Windows

NEW

Product Features:

1

24mm Low-E Argon filled double glazed units with warm edged spacer

2

Flush European contemporary sleek profile

3

Fully pre-finished in a crisp White finish

Cavity Closures

Our flat pack Cavity Closer system has been designed to provide a guaranteed perfect fit for our standard Timber Window range.

Selecting the right Cavity Closer couldn't be simpler...

1. Select a height pack to match the height of your window
2. Select a width pack to match the width of your window
3. Simply snap them together, secure the brace at the top and your assembled closer is ready to be installed

Width Packs

Product Code	Width	To suit windows	Price
CCWP06	630mm	630mm wide	£23.00
CCWP09	915mm	915mm wide	£25.00

Timber Doorset Selling Features

(also apply to Residential Doorsets on pages 12-13)

- Saves hours of joinery time when installing the product (see page 22 for further details)
- Factory manufactured cut-outs for locks, handles, hinges and letterplates
- Robust packaging - lessening the risk of any damage (especially on site)
- Choice of high security locking systems
- Full factory pre-finishing service available.

The High Performance Doorset range has been developed to meet the exacting standards of PAS23/24.

PAS23: includes testing to BS6375 Parts 1 & 2 with respect to weather performance and general performance requirements.

PAS24: tests the enhanced security performance of the door. This is a full blown attack on all parts of the door construction such as glazing, locks, joints and beads.

All of our double glazed doors have 24mm thick Low E Argon filled glass units.

How to Install an XL Joinery Doorset

One of the main advantages in purchasing an XL Joinery Doorset is the time saved during installation. We have specifically designed our products with installation in mind and by following the steps below the installation of one of our Doorsets should take no longer than half a day.

A full online video showing how to install an XL Joinery Doorset is available on our website. For details please visit www.xljoinery.co.uk

1

2

Remove packaging and inspect XL Doorset prior to installation

3

Remove existing Door/Frames

4

Remove the protruding horns from the head and the cill then treat the exposed edges with a high build external door stain

5

Place frame into opening

6

Ensure frame is square using a spirit level and fix the door to the wall using suitable frame fixers

7
